

Easy Erf Report

42 Synthetic Street

Erf 42 · Fixture town, Kouga Local Municipality, Eastern Cape

Human-reviewed investigation.

Reviewed by Synthetic admin on 2026/09/20, 23:02:12.

Version and evidence record

Version 1babfa1d-2e51-448f-93fc-9810ea1912b3 · Evidence revision 21 · Brief revision 1

The working investigation has changed. This report preserves the evidence reviewed for this version.

The assessment

Worth investigating, subject to checks

SYNTHETIC_HUMAN_EDIT: This is a synthetic human-only rehearsal. No property decision is supported.

Parcel identity checked against the official record

Official cadastral extent 600 m²

Evidence readiness 50%. 2 of 8 tracked categories are supported by recorded evidence.

Portion	Suburb / area	Town	Erf size
Portion 0	Synthetic locality	Fixture town	600 m²
Official parcel identity	Official parcel context	Official parcel context	Official cadastral record

Buy and hold rental scenario

Purchase price	Monthly cash flow	Net yield	Cash-on-cash
R 1 000 000	- R 1,053	10.4%	- 12.6%
User assumption	Calculated from saved assumptions	Calculated from saved assumptions	Calculated from saved assumptions

Saved scenario, not a valuation or a forecast. Changing the inputs changes the outcome.

What could change the decision

Still unverified: Title & Deed; Servitudes / SG; Buildings & Plans; Zoning & Use. These are gaps in evidence, not confirmed defects.

What to do next

1. Next best action

Attach the Surveyor-General diagram

The SG diagram is the primary cadastral record of erf shape, dimensions and parent lineage. Without it the boundary and area stay approximate.

Steps and supporting sources

Easy Erf records readable cadastral evidence. A parent General Plan remains contextual evidence, and the individual subject SG diagram remains a confidence upgrade.

1. Open the Sources tab and scroll to the SG diagram section.
 2. Use the SG document link to download the diagram for this erf.
 3. Upload the file to the Erf File Vault.
 4. Confirm the original file was saved and review its preview. You can continue without AI interpretation.
 5. If you choose AI interpretation, explicitly allow processing and start Read diagram. Review its result before relying on extracted evidence.
-

2.

Save more comparable listings or sales.

Market summary needs at least three relevant included comparables.

Steps and supporting sources

Save more comparable listings or sales, and the result is saved against this erf.

3.

Confirm the property's planning controls

Zoning is recorded as a working or published value, but no supported property-specific source confirms it.

6 checks in this action

Verify zoning with municipal planning records.

Verify zoning with municipal planning records, and the result is saved against this erf.

Verify coverage with municipal planning records.

Verify coverage with municipal planning records, and the result is saved against this erf.

Verify far with municipal planning records.

Verify far with municipal planning records, and the result is saved against this erf.

Verify height with municipal planning records.

Verify height with municipal planning records, and the result is saved against this erf.

Verify permitted uses with municipal planning records.

Verify permitted uses with municipal planning records, and the result is saved against this erf.

Verify setbacks or building lines with municipal planning records.

Verify setbacks or building lines with municipal planning records, and the result is saved against this erf.

Professional search near 42 Synthetic Street. External results, not an Easy Erf endorsement.

Investigation editing is unavailable in this report view. Use the evidence links to review recorded sources.

Full reviewer assessment and review provenance

Human-reviewed investigation summary

Written and approved by the human reviewer from the frozen investigation evidence. No AI synthesis was used for this summary. The underlying evidence and provenance remain in the full report below.

Bottom line

SYNTHETIC_HUMAN_EDIT: This is a synthetic human-only rehearsal. No property decision is supported.

What we know

Synthetic Erf 42, customer original preserved and working inputs recorded.

What appears possible

Deterministic Site Potential illustrates user assumptions only.

What could be a problem

Synthetic documents are not official property evidence.

What we do not know yet

Provider integration pending. No Lightstone purchase or retrieval. Real title and planning evidence remain unavailable.

What should be verified next

A qualified professional must verify title, zoning, boundaries and building feasibility before reliance.

CADASTRAL EVIDENCE

Combined SG Evidence Pack

No Surveyor-General diagram has been read for this erf yet. Upload the SG diagram in the Erf File to add cadastral evidence.

OWNERSHIP & DEEDS

Not verified by Easy Erf

Ownership is not verified. An ownership report is stored for this erf, but no ownership value has been read and matched to it yet.

· SYNTHETIC-paid_report.pdf (uploaded)

Easy Erf does not certify ownership. Owner identity numbers, registration numbers, phone numbers and email addresses are not displayed in the Easy Erf Report.

SITE POTENTIAL

What could potentially be built here?

Indicative build envelope from the parcel geometry and planning controls recorded for this erf.

Coverage working assumption	Erf extent
300 m ²	600 m ²
Working assumption: 50% of erf. Property-specific planning controls not yet verified.	Recorded cadastral extent
Maximum height	Dwellings
8 m	1 dwelling unit

● Indicative build envelope

Parcel boundary Street-facing boundary Street building line Side / rear building line

Theoretical and estimated. Not approved plans. A deterministic working envelope is not municipal approval or an approved building plan.

Market evidence and Strategy assumptions

MARKET EVIDENCE

What the market evidence actually supports

Evidence is currently too thin to responsibly calculate an indicative value.

SUBJECT LISTING

No subject listing has been attached to this erf.

ASKING VERSUS SOLD

Asking-price evidence

1

Sold evidence

0

STRONGEST COMPARABLE EVIDENCE

Saved market evidence

R 1 200 000

Same suburb comp · Asking listing · Medium confidence

600 m² land

Asking evidence is never presented as a completed sale. Sold evidence is only shown when a source states it.

MISSING MARKET EVIDENCE

No asking price captured for the subject property.

No municipal valuation has been read from an identity-matched document.

Too few comparables to justify an indicative range.

All saved market evidence is asking-price evidence. No sold evidence is attached.

STRATEGY & FINANCIALS

Buy and hold rental scenario

Strategy figures come from your saved Strategy Lab scenario exactly as calculated there. They are assumptions and deterministic calculations, never valuations or feasibility approvals.

Property checks, services and location

PROPERTY CHECKS

Physical and environmental evidence

WHAT THE EVIDENCE SUPPORTS

No physical constraint has been established from evidence

Nothing has been read that describes slope, flooding, drainage, coastal setbacks or environmental status for this erf.

SLOPE / TOPOGRAPHY

Not established

NOT ESTABLISHED

No topographical survey or geotechnical note has been read for this erf.

PHYSICAL ACCESS

Not established

NOT ESTABLISHED

No document states how this erf is physically accessed.

ORIENTATION / ASPECT

Not established

NOT ESTABLISHED

Orientation has not been recorded from a diagram or site assessment.

WIND EXPOSURE

Not established

NOT ESTABLISHED

Wind exposure has not been assessed or recorded for this erf.

DRAINAGE / STORMWATER

Not established

NOT ESTABLISHED

No drainage or stormwater information has been read for this erf.

FLOOD RISK

Not established

NOT ESTABLISHED

No flood-line or flood-risk determination has been obtained.

COASTAL / SETBACK STATUS

Not established

NOT ESTABLISHED

BIODIVERSITY, WETLANDS & PROTECTED AREAS

Not established

NOT ESTABLISHED

No coastal management line or setback determination has been obtained.

No environmental screening result has been recorded for this erf.

HERITAGE STATUS

Not established

NOT ESTABLISHED

Heritage status has not been confirmed with the heritage authority.

OUTSTANDING CHECKS

Flood-line and stormwater determination — Request the municipal flood-line determination or commission a civil engineer.

Geotechnical and slope assessment — Commission a geotechnical report before assuming the site is buildable as-is.

Environmental screening — Run a national environmental screening report to test biodiversity, wetland and protected-area triggers.

Coastal management line check — Confirm the coastal management line and setback with the provincial authority.

Unknown is not the same as cleared. Easy Erf never marks a physical or environmental check as clear because evidence is missing, and opening a portal is not a finding.

Add specialist reports or official determinations to the Erf File Investigation changes are unavailable in this report view.

MUNICIPAL SERVICES & OWNERSHIP COSTS

What it actually costs to hold this erf

WHAT THE EVIDENCE SUPPORTS

No ownership-cost item is supported by evidence yet

Rates, levies and service charges change the true cost of holding this erf. Only amounts read from an identity-matched document are shown.

ESTIMATED MONTHLY OWNERSHIP COST

No monthly ownership cost can be shown. No document states a monthly rates, levy or service amount for this erf, and Easy Erf will not estimate one.

MUNICIPAL VALUATION

Not established

NOT ESTABLISHED

No municipal roll value has been read from an identity-matched document.

RATES

Not established

NOT ESTABLISHED

No rates amount has been read from a municipal account or report.

LEVIES

Not established

NOT ESTABLISHED

No levy amount has been read. Estate or sectional-title levies may still apply.

WATER

Not established

NOT ESTABLISHED

No water connection status has been confirmed with the municipality.

SEWER / SEPTIC

Not established

NOT ESTABLISHED

No sewer or septic arrangement has been confirmed for this erf.

ELECTRICITY

Not established

NOT ESTABLISHED

No electricity connection or supply authority has been confirmed.

REFUSE

Not established

NOT ESTABLISHED

No refuse service has been confirmed for this erf.

ROAD ACCESS

Not established

NOT ESTABLISHED

No document states the road access or road surface for this erf.

ACCOUNT STATUS / ARREARS

Not established

NOT ESTABLISHED

No municipal account statement has been supplied, so arrears are unknown.

OUTSTANDING CHECKS

Municipal valuation — Request the municipal valuation roll entry and current rates account.

Rates — Request the municipal valuation roll entry and current rates account.

Levies — Confirm this service directly with the municipality or service authority.

Water — Confirm this service directly with the municipality or service authority.

Sewer / septic — Confirm this service directly with the municipality or service authority.

Electricity — Confirm this service directly with the municipality or service authority.

Refuse — Confirm this service directly with the municipality or service authority.

Road access — Confirm this service directly with the municipality or service authority.

Account status / arrears — Request a municipal account statement or rates clearance figures.

Easy Erf never shows R0 for an unknown amount and never estimates a charge that no document states.

Add municipal account or service evidence Investigation changes are unavailable in this report view.

LOCATION

Location context

WHAT THE EVIDENCE SUPPORTS

3 location fact(s) supported by evidence

Official and map-derived facts, listing-derived descriptions and your own confirmed observations are kept apart, so marketing language never becomes a fact.

CONFIRMED ADDRESS

42 Synthetic Street

USER SUPPLIED

Address confirmed by you against the official parcel.

MUNICIPALITY & PROVINCE

Kouga Local Municipality · Eastern Cape

OFFICIAL / MAP-DERIVED

Official cadastral attributes for this parcel.

MAP POSITION

-34.16010, 24.83015

OFFICIAL / MAP-DERIVED

Derived from the official parcel geometry.

DISTANCE TO BEACH / COASTLINE

Not established

NOT ESTABLISHED

No measured distance or travel time exists in the evidence. Easy Erf does not estimate one.

DISTANCE TO TOWN CENTRE

Not established

NOT ESTABLISHED

No measured distance or travel time exists in the evidence. Easy Erf does not estimate one.

DISTANCE TO SHOPS

Not established

NOT ESTABLISHED

No measured distance or travel time exists in the evidence. Easy Erf does not estimate one.

DISTANCE TO SCHOOLS

Not established

NOT ESTABLISHED

No measured distance or travel time exists in the evidence. Easy Erf does not estimate one.

DISTANCE TO MEDICAL FACILITIES

Not established

NOT ESTABLISHED

No measured distance or travel time exists in the evidence. Easy Erf does not estimate one.

ROAD ACCESS

Not established

NOT ESTABLISHED

No document states the road access for this erf.

VIEWS

Not established

NOT ESTABLISHED

No view description has been captured from a listing or your own site notes.

NOISE

Not established

NOT ESTABLISHED

No noise observation has been recorded for this erf.

NEIGHBOURHOOD CHARACTER

Not established

NOT ESTABLISHED

No neighbourhood description has been recorded from evidence or your notes.

NEARBY DEVELOPMENT ACTIVITY

Not established

NOT ESTABLISHED

No nearby development activity has been recorded for this area.

OUTSTANDING CHECKS

Distance to beach / coastline — Measure the distance yourself and save it as a property note.

Distance to town centre — Measure the distance yourself and save it as a property note.

Distance to shops — Measure the distance yourself and save it as a property note.

Distance to schools — Measure the distance yourself and save it as a property note.

Distance to medical facilities — Measure the distance yourself and save it as a property note.

Road access — Record what you observed on site, or attach a source that states it.

Easy Erf never invents a distance, a travel time or a lifestyle claim. Anything not stated by a source stays blank with a next step.

Add site observations in Notes Investigation changes are unavailable in this report view.

EVIDENCE FINDINGS

Recorded findings and conflicts

VERIFIED

Parcel identity checked against the official record

Erf number: 42 · Erf number: 42 · LPI: C000000000000004200000 · Portion: 0

Every other finding in this report is tied to this confirmed erf.

Source: [User uploaded Lightstone or WinDeed property report](#); [Chief Surveyor-General](#)

SUPPORTED BY EVIDENCE

Official cadastral extent 600 m²

The official parcel record states 600 m².

This is the cadastral area used for area-based calculations unless a registered deed extent is confirmed.

Source: [Chief Surveyor-General](#)

NOT CHECKED

Ownership report uploaded but not readable as evidence yet

1 uploaded report(s) exist, but no ownership value has been matched to this erf.

The document is stored, but until it is read and matched to this erf it cannot be used as ownership evidence.

Source: [User uploaded Lightstone or WinDeed property report](#)

NOT CHECKED

Diagram or deed uploaded, servitude conditions not read yet

1 diagram/deed file(s) are stored, but no servitude or building-line value has been read from them.

Servitudes and building lines can only be cleared from this erf's own diagram and title conditions. A stored file, a generic title condition, or a matched parent General Plan is not clearance.

Source: [User uploaded SG diagram](#)

NOT CHECKED

Working planning assumptions recorded

Maximum coverage: 50 (user-confirmed working conclusion) · Zoning: Residential Zone 1 (single residential) (user-confirmed working conclusion)

A working planning basis exists for the investigation, but it is not municipal confirmation or an approval to build. Obtain the property-specific zoning and planning records before relying on it.
